- Quick and Easy Joystick Operation
- Full Alphanumeric Touchscreen
- Built in Printer
- Color camera and Bluetooth
- 520 MHz XScale processor
- Li-Ion battery
- Microsoft Windows CE 5.0

DESIGNED FOR THE PARKING ATTENDANT

Continuing our range of leading enforcement terminals, the Ticketman offers a complete packaged terminal for all enforcement needs. Complete with a 2 inch thermal printer, color camera, Bluetooth and USB communication standards, the Ticketman offers all the functionality required for efficient outdoor operation. A full color display coupled with a joystick and soft keys allows for easy one handed operation while the full alphanumeric keypad ensures easy entry of all types of data.

COMPLETE ENFORCEMENT PACKAGE

Full integration with our leading Politecs Traffic Enforcement Software enables the ticketman to easily handle a variety of other innovative applications, such as statistics, market stall and harbour fees, maintenance of pay and display equipment, police applications and a variety of other options.

A fully open interface allows a seamless integration with all types of back end processing software making the Ticketman complete as a full packaged solution to meet all your enforcement requirements.

A COMPLETE SERVICE PROVIDER

The versatility and power of the Ticketman opens new dimensions for its users, as it will search, find, retrieve and even print data such as address files, city maps, timetables or restaurant guides.

The traffic warden – seldom seen as helpful – suddenly becomes a mobile information service for citizens and tourists alike: A communication center right where the people are – on the streets.

This not only heightens commitment and motivation between municipal employees and those in the police service, it also strengthens the bond between city and citizen: Help is always just around the corner.

ABOUT SCHWEERS

For more than 18 years Schweers has developed and manufactured mobile computers and market-specific software. At present, over 10,000 Schweers mobile computers are in use in more than 750 cities and police departments worldwide.

High customer satisfaction and extensive technical know-how have made Schweers the market leader in Europe and a leading force around the world. Fundamental to the company's success is Schweers' belief that common goals can only be reached by working together. Schweers has established a network of partners in over 15 countries in Europe, Asia Pacific, the North America to guarantee excellent pre- and post-sales services and close customer relations.

Customer satisfaction is Schweers' priority.
